

Workshop project “ Creating Digital Media for Digital Generation in Digital World” of Information Studies program, Faculty of Humanities and Social Sciences

Information Studies Program of Information Sciences, Faculty of Humanities and Social Sciences organized a workshop project for students on October 12th, 2019. The campaign “ Creating Digital Media for Digital Generation in Digital World” was held at computer laboratory center room 3511 at the faculty of Humanities and Social Sciences. The workshop was honored by Asst. Prof. Dr. Wannaporn Chujitarom (Ajarn Pan), a talented speaker, as the guest speaker to share knowledge about creating digital media in 21st century. The objective of the project is to develop the skills for students to use in their internship in the future.
